Met In person

- 2 pages
 - 1 page with the Info and the other with music.
 - For the info page if possible I want there to be a sticky nav bar and it has the sections of the info page and if you click on one of the options it will take you to the spot on the page (not to another page)
- For the music page, I want it to be similar to an in-person shop. There is a box of records and when you hover over it you are able to see the full music disc.
 - 10-5 songs

Aesthetic

- Light color,

Based on the sent pictures

Font

- Airy simple sans-serif
